eliteenvelope.com

- A manufacturer/converter and printer of commercial envelopes.
- A web printer specializing in cut sheets, letters, fliers, brochures and direct mail pieces.
- A business forms supplier specializing in multi-part business forms, pin feed forms, consecutive numbering, pocket forms, self-mailers and more.

Envelope Manufacturing - All standard and special sizes from 3 ½" x 5" booklet through 12 x 15 ½ open end – all commercial sizes from 6 ¼ through #14 including Kost Kuts. We make all kinds of special size envelopes including A-style and baronial as well as special windows. Hundreds of envelope and window die sizes in stock. Side seam and diagonal seam – all die-cut.

Best quantity range from 500 to 500,000.

Envelope Printing - One 6" and two 3" offset presses which print 2/2 and can handle sizes up to 12 x 15 ½ including tyvek and translucent stock. One four color offset press. Two digital envelope presses which can print from 3 x 5 up through 12 x 19. Prints full coverage full bleeds on certain envelopes. Also, white ink.

Best quantity range for digital 100 through 5,000.

Best quantity range for offset 2,500 into the millions.

Web Printing – Two 8 color Didde cold web presses. Prints up to 4/4. Most competitive products are letter or legal size cut sheets. Can do perforations in line. Excellent for statements, letters, letterhead, fliers, brochures, mailing cards, buck slips and other direct mail and marketing-related products. Uncoated stock only.

Best quantity range from 10,000 into the millions.

Business Form Printing – Can supply all types of continuous forms including printed roll stock, carbonless and carbon-fed forms, snap sets, pocket forms, consecutive numbering, self-mailers, official documents and more.

Best quantity range from minimums into the millions.

Specialty Items – We provide tabbing, banding, clasping, perforations, hole-punching and shrink-wrapping. We can also provide peel and seal and latex sealing for envelopes.

Shipping & Storage – Unmarked trucks for deliveries in your name to the greater Boston area. All other shipments handled by UPS or common carrier.

Online Services – FTP site for transmitting large files. Custom web portal available for document library and order history.

We can also be a source for customers who want a “Green” message on their forms or envelopes. Elite generates more than half of its power through solar panels on our roof. No other envelope or printing company in this area can match that. We can print a custom logo saying that the piece was “printed (or made) with renewable energy”.
